

Focus on Safety

Think first

Move safely, feel each movement.

Use your muscles don't abuse them.

Stay calm and focused. Only with a calm and focused attitude can you work safely. No matter what happened at home or before work you need to focus entirely on your job. It is your top responsibility to be safe.

Lead in Safety

Wear your safety equipment :

Safety goggles
Back braces
Gloves
Respirator masks

Use your safety equipment properly:

Ladders
Electrical cords
Electrical switches
Wet floor signs
Mop buckets are wet floor signs too.

Leadership

Responsibility

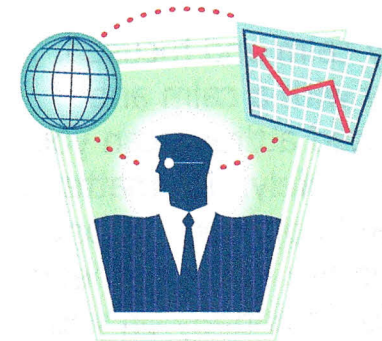

The top contributor to businesses closing and people losing their jobs are safety issues.

You can make the difference!
You can be safe!

Priority

No matter who you are in our organization, you are a safety leader. The biggest concept of leadership is ACTION, not SPEECH. Lead with your actions!
